

Description

6 and 12 volt emergency units designed for use in wet or dirty areas. Units feature corrosion-resistant enclosures, gasketed construction and sealed lighting heads.

Features

- 6 and 12 volt models
- Capacities from 16 to 104 watts
- Sealed and gasketed construction
- Provides protection against dust, dirt, corrosive atmospheres and water spray (hosedown)
- Corrosion resistant NEMA 4X type fiberglass enclosure in industrial gray finish
- Fully adjustable thermoplastic lighting heads with locking swivel assemblies
- Choice of maintenance-free lead calcium or long life nickel cadmium battery models
- 90 Minutes of emergency illumination
- Universal 120/277VAC input
- 32°F to 104°F (0°C to 40°C) temperature range
- Fully automatic, temperature compensating, variable rate float charger standard
- Automatic low voltage battery disconnect protects battery from deep discharge
- Automatic brownout protection
- AC lockout feature reduces installation time
- Optional self-diagnostic circuit available
- Sealed momentary test switch and AC ready Indicator
- Meets NFPA Life Safety Code 101, NEC, OSHA, State and local Codes
- UL924 listed
- UL924 Wet Location listed

Ordering Guide

Model No.	Volts	Watts For 1 1/2 Hrs.	Watts For 2 Hrs.	Watts For 3 Hrs.	Watts For 4 Hrs.	Standard Lamp	Weight (Lbs.)
Lead Calcium Battery Models

Specifier Reference

Project: _____

Fixture Type: _____

Model No.: _____

Comments: _____

Construction

Housing: Corrosion resistant NEMA 4X type sealed and gasketed enclosure in industrial gray.

Lighting Heads: Impact resistant, UV stable, flame rated thermoplastic lamp housing and swivel assemblies in gray finish to match unit housing. Heads and swivels are sealed and gasketed. Lighting heads are fully adjustable and feature lockable swivels.

Installation

Mounting: Units are designed for installation to wall surfaces by means of four mounting tabs provided on the enclosure.

Illumination

High output incandescent lamps maximize illumination characteristics through a specially designed reflector and glass lens assembly that provides glare-free trapezoidal light distribution.

Lamp Type: Incandescent - Par 36 sealed beam

6 Volt Lamp Rating: 6 volt, 7.2 watt

12 Volt Lamp Rating: 12 volt, 12 watt

Lamp Life: 100 hours (expected average)

Code Information

All models are UL924 Listed and meet NFPA 101 Life Safety Code, NEC, OSHA, Local and State Codes

Charger and Electronics

Charger Type: Fully automatic, temperature compensating, variable rate float charger

Utility Input: 120/277VAC, 60 Hz.

Power Consumption: 15 watts (maximum)

Temperature Range: 32°F to 104°F (0°C to 40°C)

Recharge Duty Cycle: 24 hours

Load Transfer: 6 volt models rated 25 watts or less and 12 volt models rated 50 watts or less utilize a solid state transfer circuit for load connection. All other models utilize mechanical relays for load transfer and provide fused DC load connections.

Controls: Momentary test switch and LED AC-On indicator light
Safety Circuitry:

AC Lockout: Prevents battery discharge prior to initial unit power-up saving installation time.

Low Voltage Battery Disconnect: Protects the battery from being severely damaged by deep discharge during prolonged power failures.

DC Overload and Short Circuit Protection: On units with solid state transfer, output protection is provided by a disconnect circuit that automatically resets itself when the fault condition is corrected. On units with mechanical relay transfer, output protection is provided by fused load connections. See Load Transfer above for details.

Brownout Protection: Automatically switches the unit to emergency mode when utility voltage is reduced to the point at which most fluorescent light fixtures would extinguish.

Emergency Operation

Upon failure of the normal utility power, a solid-state transfer switch automatically connects the unit's battery to the emergency lamp. Emergency illumination will be supplied for a minimum of 90 minutes. During emergency operation, the unit battery is protected from severe discharge damage by an automatic low voltage disconnect circuit that discontinues unit operation when battery voltage reaches 87.5% of nominal. When normal utility power is restored, the battery is automatically disconnected from the load and a recharging cycle begins that will return the battery to full capacity within 24 hours.

Dimensions

Model No.	Dimensions - Inches (cm)				
	D	W1	W2	H	T
GNX-3	6 1/8 (15.6)	8 1/2 (21.6)	10 (25.4)	6 1/2 (16.5)	12 1/2 (31.8)
GNX-5	6 1/8 (15.6)	8 1/2 (21.6)	10 (25.4)	6 1/2 (16.5)	12 1/2 (31.8)
GNX-7	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
GNX-9	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
GNX-11	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
G12NX-12	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
G12NX-14	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
G12NX-16	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
G12NX-18	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
GNXN-3	6 1/8 (15.6)	8 1/2 (21.6)	10 (25.4)	6 1/2 (16.5)	12 1/2 (31.8)
GNXN-5	6 1/8 (15.6)	8 1/2 (21.6)	10 (25.4)	6 1/2 (16.5)	12 1/2 (31.8)
G12NXN-12	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)
G12NXN-14	8 1/8 (20.6)	10 1/2 (26.7)	12 (30.5)	8 1/2 (21.6)	14 1/2 (36.8)

Optional Self-Diagnostic Circuit

The optional SX self-diagnostics circuit automatically cycles the emergency lighting unit every 25-30 days. The SX circuit checks for battery charging and over charging, battery capacity and reports any system malfunction. By design the SX does not activate the lighting heads, thus avoiding substantial lamp life reduction.

Battery

Models are offered which provide either standard duty lead calcium or longest life nickel cadmium batteries. Both battery types are fully maintenance free and designed to provide many years of dependable service.

Warranty

Unit: (excluding lamps) 3-years full coverage against defects in materials and workmanship from date of shipment

Battery: 3 years full warranty plus an additional 7 years of pro-rata coverage
